ABOUT THIS PROGRAM

The Master of Arts degree in Psychology (MAP) program, a non-clinical, non-licensure track program, is designed to cover all aspects of the psychology profession by emphasizing theory, research, and practice and to give students the broadest range of education and experience to expand their occupational and academic opportunities.

Students are equipped to pursue a career in the areas of industrial and organizational psychology, developmental psychology, or general psychology. This 30-credit program may also serve as a stepping-stone into various doctoral degrees.

WHAT YOU'LL LEARN

- Read and critique psychological research
- Design and execute research studies
- Apply behavioral science in organizational settings
- Understand lifespan and developmental psychology
